

CUSTOMER NOTICE

Update 5th November 2020

Following the new government guidelines as well as taking advice from the kitchen and bathroom showroom association we are pleased to announce that we will continue to trade until 2nd December when the 2nd lockdown is scheduled to end.

Our internet site is fully operational with no changes to our level of service to allow us to supply our clients in the building and construction industry with our suppliers and delivery partners open as normal. We can deliver anywhere in mainland U.K. or arrange click and collect for our customers that are located locally.

Our retail showroom will be closed for walk in customers from 9am On 5th November but customers will be able to arrange a design consultation visit on an appointment basis to the showroom, this can be done by phone, email from the website or our facebook page.

Design appointments will be available throughout the day and will allow a 1 hour private consultation with one of our designers in the showroom, at this time no other customers will be admitted.

If you require design help but are not in a position to visit the showroom we also have some options of virtual appointments, please contact us so we can discuss this with you.
